## May the 4<sup>th</sup> be with you!

### Star Wars Trivia!

- Luke Skywalker's name was originally going to be Dirk Starkiller. Glad George Lucas changed his mind...
- "Vader" is Dutch for "father." Coincidence? I think not.
- The name of the planet Tatooine came from the town of Tataouine in Tunisia where the movie was filmed.
- The Millennium Falcon's design was modeled after a hamburger with an olive next to it.

In case you all were wondering where the bathroom minutes were last week, through a series of unfortunate events they were never distributed ☹ Here's what they would have looked like...
